SKILLS

TECHNICAL SKILLS

- C
- HTML
- CSS
- JAVASCRIPT
- SQL
- PYTHON
- RPA
- XML
- POSTGRESQL

TOOLS

- POWER BI
- MS Office
- UI Path
- Microsoft Azure

SOFT SKILLS

- PROBLEM SOLVING
- COMMUNICATION
- TEAM PLAYER
- TIME MANAGEMENT

INTERNSHIP

○ Ai Lab Technologies

MAR 2024 - NOV 2024

Junior Software Engineer

Worked on ERP solutions using Python, assisting in development and implementation, with hands-on experience in database management and front-end integration.

WORK EXPERIENCE

○ Ai Lab Technologies

JAN 2025 - FEB 2026

Software Engineer

Private Air Charter Business System :

- Developed a solution using Python for managing private air charter operations, enhancing functionality and operational efficiency.

Timesheet Extraction and Payroll Generation System :

- Built a complete timesheet extraction and payroll automation system using Python and PostgreSQL, improving process accuracy, operational efficiency, and providing real-time payroll insights.

Web Development:

- Designed and developed two responsive websites using HTML, CSS, JavaScript, and Bootstrap, emphasizing user experience and seamless functionality across devices.

ERP Solutions:

- Contributed to developing ERP solutions that streamlined business processes, improved operational efficiency, and optimized resource management.

ACADEMIC PROJECT

○ Deep Learning -Powered Virtual Wardrobe: Trying on Clothes using Convolutional Neural Network

Developed a deep learning-powered virtual wardrobe using CNN, Python, and SQL, accurately modeling garment fit, style, and color to enable realistic virtual try-ons.

EDUCATION

○ 2020 - 2024

Periyar Maniammai Institute of Science & Technology

Bachelors of Technology in Computer Science & Engineering

CGPA:8.62

○ 2019 - 2020

National Matriculation Higher Secondary School

Higher Secondary Education

Percentage:75%

○ 2017 - 2018

St.Anne's Matriculation Higher Secondary School

Secondary School Education

Percentage:84%
